Company Info:

GHG's fleet of custom-designed trucks are outfitted with industry-leading triple temperature storage compartments (ambient, +38F and -30F) so as to maintain the appropriate temperature of goods throughout the delivery process. The company's Fleet of tractors is all 2014 or newer and we recycle units every 3 years to ensure we limit breakdowns and have no service failures. They all are also equipped with satellite tracking to give precise locations and answer customer questions concerning their product in real time.
